SPRE IASI - HOLBOCA

SPRE TUTORA

CELULA NR. 1/CELL NO 1

Subcompartiment nr. 1 in exploatare
Subcompartment no. 1 in exploitation

Subcompartiment nr. 2 executat
Subcompartment no. 2 executed

Subcompartiment nr. 3 de executat
Subcompartment no. 3 to be executed

Subtraversare prin foraj dirijat
Undercrossing with controlled horizontal drilling

Poarta intrare
Entrance gate

Cabina portar
Security house

Bariera acces in caz de urgenta

Cantar
Weighbridge

Teava protectie OL Dn 508x9.5 mm
OL Dn 508x9.5 mm protection pipe

Gura de varsare
Discharge outlet

Zona de spalare a rotilor
Wheel wash facility

Podet tubular Ø 1000, L=12.5m
Tubular bridge Ø 1000, L=12.5m

Dig delimitare subcompartiment
Subcompartment delimitation embankment

Conducta perforata de drenaj Ø 250 din PEID
Ø 250mm HDPE perforated drain pipe

Conducta perforata de drenaj Ø 315 mm din PEID
Ø 315mm HDPE perforated drain pipe

Canal pluvial perimetral
Perimetral ditch

Spatiu facla celula I
Flare unit space for cell I

Cladire intretinere-reparatii
Repair maintenance building

Camin de conectare si spalare
Connection and cleaning manhole

Conducta neperforata de levigat Ø 315 mm din PEID
Ø 315 mm HDPE neperforated wastewater pipe

Podet tubular Ø 1200, L=15 m
Tubular bridge Ø 1200, L=15 m

Teava de protectie
Protection pipe

Statie de carburanti
Fuel pump station

Platforma grup electrogen
Electric power generator platform

Gospodaria de apa
Water management area

Gura de varsare
Discharge outlet

Statie epurare ape menajere
Waste water treatment plant

Bazin retentie levigat
Leachate retention basin

ZONA PRIMIRE/
RECEPTION AREA

Statie epurare levigat
Leachate treatment plant

Statie de pompare SP1
Pumping station

Bazin retentie levigat
Leachate retention basin

Bazin retentie ape conventional curate
Clean water retention tank

Storm water retention basin
Bazin de retentie ape pluviale

Oil separator
Separator de hidrocarburi

Linie electrica ce se va devia
Electric power network that will be deviated

HCA - 46/4

HCA - 46/6

LIMITA S=50 ha

LIMITA PROPRIETATI PARTICULARE

Arie teren incinta Tutora = 500.000mp
POT existent =0%
CUT existent =0
POT propus= 5%
CUT propus=0,05

LEGEND / LEGENDA

- 34.75 — Elevation level / Cota de nivel
- Elevation curves / Curbe de nivel
- Designed ditch / Canal proiectat
- Fence / Gard
- Water supply pipe / Conducta alimentare cu apa
- Storm water pipe / Conducta apa pluviala
- Waste water pipe / Conducta de apa uzata menajera
- Waste water pipe / Conducta ape reziduale
- Water manhole / Camin apa
- Storm water manhole / Camin apa pluviala
- Waste water manhole / Camin ape menajere
- Waste water manhole / Camin ape reziduale
- Gutter shaft / Gura de scurgere
- Hydrant / Hidrant
- Drainage channel / Canale de desecare
- Wood pole - electric power network / Stalp din lemn - retea electricitate
- Concrete pole - electric power network / Stalp din beton - retea electricitate
- Hight voltage steel pole / Stalp metalic de inalta tensiune
- Connection to irrigation network / Racord pentru instalatie irigare
- Irrigation pipe / Conducta irigatii
- Aerial electric power network / LEA - linie electrica aeriana
