## INTERNATIONAL BUILDING TRADE FAIR

### UIA INVITES THE WORLD'S ARCHITECTS TO BATIMAT 2007

From 5 to 10 November 2007, Paris will host the 26th BATIMAT trade fair. Every two years BATIMAT takes stock of technical evolutions, performance, and innovations in the building industry.

For the 2007 edition, **sustainable development** was again chosen as the federating theme for three key sectors that have made huge advances: **energy performance, security, and renovation.**

For the second time, the International Union of Architects is associated with this event and will organise within its framework a series of international conferences relevant to the selected themes.

Architects from around the world are invited to attend **BATIMAT 2007 free of charge**, by registering on-line at the following addresses:
