Madrid, 20th February, 2009

Dear Sir.

Me, last year architecture student, through this letter I am asking for the possibility to do an internship in your studio during the period between the 1st of June and the 31st of July.

I have almost finished my degree in architecture, so I have all the knowledge to work in an architecture studio. Indeed, the last courses in my school are focused as if the students work for a studio developing a complete project in the design, the structure, the facilities and the law. I am interested in developing architecture and structures and my studies are leading that direction.

I am really interested in discovering different cultures. I have already been studying in Sweden and now I would like to go to the other corner of Europe. Besides, Bucarest is in the east of Europe, however, during the three weeks that I have been there I have realized that it is a rising city with countless opportunities and a huge potential.

Looking forward for a positive answer, I would be available in Bucarest to arrange a meeting from the 11th of March to the 16th or in April from the 6th to the 12th.

Yours faithfully.

Mario Rodríguez
