

Architecture Awards 2007

Architecture+Design & Spectrum Foundation Architecture Awards 2007 would also be applauding excellence in architecture in Malaysia, Singapore and Thailand, respectively, and also at the global level.

The criteria pursued for these very significant Awards in the South-East Asian belt has been to award an architect who has set trends/directions for the architecture for his respective country and someone who has nurtured the growth process in architecture. The Award Secretariat did a research as to the probable architects who would be worthy of this prestigious Award. Based on this research we are happy to announce:

Sonny Chan
The Golden Award for Excellence
in Architecture, Singapore

Nithi Sthapitanonda
The Golden Award for Excellence
in Architecture, Thailand

Dato' Parid Wardi Sudin
The Golden Award for Excellence

Architecture+Design & Spectrum Foundation

Architecture+Design & Spectrum Foundation are happy to announce the jury outcome for the seventh cycle of the "Architecture+Design & Spectrum Foundation Architecture Awards 2007". The jury meets took place in New Delhi in January '08. A panel of 25 architects participated in the meets. A group of five jurors met each day for each category. Care was taken to see that the jury for each of the five categories was a selection of eminent architects from all over the country and also included some from the South-East Asian regions. This led the jury meets to acquire a wider perspective in gauging creativity. The jury conclusions were at times unanimous and at other times a healthy disagreement of opinions leading to intense debates and discussions. Felicitations to the Awardees!
