**Dear Sir or Madam,**

"For tomorrow, not for yesterday," is how Austrian Environmental Minister Niki Berlakovich describes his vision of an energy independent Austria. Are you also ready to contribute your products and skills to the goal of "100% renewable energy?"

Then the international energy trade fair [RENEXP0® AUSTRIA](#), which takes place from November 24th-26th, 2011 is the ideal platform for you. As Austria's state energy trade fair, it covers a unique and broad range of energy topics and showcases the entire spectrum of decentralized energy production, intelligent energy distribution and efficient energy use.

The location in Salzburg is not only ideal for travel, but it also serves to attract visitors and exhibitors from neighboring regions, especially Bavaria and South Tyrol. Bavaria will once again serve as this year's official partner region of the [RENEXP0® AUSTRIA](#).

These are the main themes of 2011:

**Energy Production**

[Hydropower](#)  
[Photovoltaics](#)
