

TO UIA MEMBER SECTIONS  
TO UIA WORKING BODIES

Paris September 30, 2014

Dear Colleagues,

The theme of 2014 World Architecture Day, October 6, will be "Healthy Cities, Happy Cities." The UIA has invited its members sections and working bodies to organise special activities linked to the event, which will celebrate the role architects and architecture play in the vitality of the urban setting and in the well-being of its inhabitants.

The UIA has prepared a special logo to be use on the occasion of the 2014 World Architecture Day. A copy is attached. Please feel free to use it in the context of the celebration you are organising in your country during this period

I wish you all a Happy World Architecture Day!

Best regards,

A handwritten signature in blue ink, appearing to read "Esa Mohamed", is written over a light blue diagonal line that crosses the page.

Esa Mohamed  
UIA President
