

REGISTRATION FOR EUROPEAN AWARD FOR ARCHITECTURAL HERITAGE INTERVENTION AADIPA NOW OPEN

- *The European Award for Architectural Heritage intervention AADIPA is a biennial contest organized with the support of COAC (Official Association of Architects of Catalonia) and AADIPA (Association of Architects for the Defence and Intervention in Architectural Heritage), the purpose of which is to distinguish patrimonial good practices and contribute to their disclosure, opens the registration period of its second edition.*

December 2014_ The Award for Architectural Heritage Intervention AADIPA, arises from the belief that heritage, as a vehicle for social integration and an economic vitalizing resource for the community, deserves to be appreciated and encouraged. In the current context, in which architectural heritage is considered not only to be a fundamental instrument of knowledge but also a first rate socio-economic resource for the sustainable development of the territory, the disclosure, distinction and recognition of works and quality projects contributing to the preservation of the collective memory is imperative.

With this second call, the deadline for registration comprising December 2014 to April 15, 2015 at 24:00, the contest is aimed at consolidating itself as a catalyst and observatory of new challenges added to the conservation and intervention in built heritage by the globalization of contemporary architecture. All those experts involved in the interdisciplinary heritage value chain -architects, historians, archaeologists...-, can participate in a contest that will end with the awards ceremony taking place in June 2015 in the city of Barcelona within the framework of the International Biennial of Architectural Heritage that is organized with the support of COAC, AADIPA and the Government of Catalonia.
