# WORLD RENEWABLE ENERGY CONGRESS 14 – WREC XIV

Bucharest – RO / June 8 to 12, 2015

## University POLITEHNICA of Bucharest (UPB)

Is the largest and the oldest technical university in the country and among the most prestigious universities in Romania. The tradition of our institution, developed in over 195 years through the effort of the most important nation's schoolmasters and of the generations of students, is not the only convincing reason. Today, the UPB is undergoing a continuous modernization process, being involved in a permanent dialogue with great universities in Europe and all over the world.

### Mission Statement

Renewable energy is growing fast – providing jobs for more than 6 million people globally and triggering annual investment of more than 250 billion dollars world-wide. Renewables can drastically reduce dependence on energy imports and provide rapidly increasing contributions to urgently needed electricity demand globally.

Renewables are the cornerstones and the foundation of a truly sustainable energy future. Our mission is to promote enabling policies and to further develop a broad range of renewable energy technologies and applications in all sectors – for heating and cooling, agricultural applications, water desalination, industrial applications and for the transport sectors.

### Forum topics

1. Photovoltaic & Solar Thermal Technologies and Systems
2. Sustainable and Low Energy Architecture
3. Biomass, Biofuels and Waste-to-Energy
4. Wind and Hybrid Energy
5. Water and Hydropower
6. Geothermal Energy
7. Hydrogen and Fuel Cells
8. Renewable System Integration
9. Policy, Finance and Education
10. Energy Meteorology

### Date to remember

- Abstract: From now to March 10, 2015
- Notification of acceptance: From now to April 10, 2015
- Registration deadline: April 30, 2015

**Abstract:** Abstract should be one or maximum two pages A4, single spacing using Arial font – 10. It should contain title, authors name, 4-keywords, full address & e-mail. Please specify one of the above topics.

Abstracts will be sent by e-mail to the Conference address: [office@wrec.ro](mailto:office@wrec.ro)

The mission of UPB has been thought over as a blend of education, research and innovation, which represents a key towards a knowledge-based society and economy. Creating knowledge mainly by scientific research, giving it out by education and professional training, disseminating it by information technologies, as well as the use of technological innovation are elements that define the university distinctive profile. In order to face these complex challenges, the UPB is planning a sound educational and research-development policy with the participation of the entire community.

Across the EU28, in 2012, energy from renewable sources was estimated to have contributed 14.1 percent of gross final energy consumption, up from 8.3 percent in 2004.

Romania is an example of good practice in implementation of renewable energy sources technologies.

In the last 10 years, Romania has increased energy from renewables more than 7 percent from 2004 to 2012 and now draws almost 23 percent of power from green sources - well above the European average.

Therefore we can say that Romania is fully involved in developing a Better, Cleaner and Safer world.

### The Forum is organized by:

World Renewable Energy Congress & Network (WREN)

The Romanian Academy

University POLITEHNICA of Bucharest

Technical University of Civil Engineering Bucharest

The Conference Language is English.

Full papers should be complete up to date - June 8, 2015

All full paper will be peer reviewed and will appear in the conference proceedings after the Congress. Also 50 papers will be selected and published in prestigious journals.

The abstract will be sent together with the registration form.

The registration form will be downloaded from the conference website:
