

Policy seminar and workshop

**'Cultural heritage, disaster resilience and climate change:**

**The contribution of EU research and innovation'**

7 DECEMBER 2016, Brussels

**The European Commission DG Research and Innovation** is organizing a full day event with policy makers, stakeholders and researchers and innovators

to discuss the **latest developments on cultural heritage at risk:**

- How to increase disaster resilience of cultural heritage sites facing natural hazards and extreme climate-related events?
- What innovative solutions to prevent other types of risks and mitigate environmental, economic and social impacts?
  - What are the most recent findings from EU research and innovation projects?
  - Are you interested to take part in the open debate and to join the community of innovators on cultural heritage?

Morning session:

Policy seminar with speakers from the **European Commission, UNESCO, NGOs and Europa Nostra**

Afternoon session:

Workshop on research and innovation themes. Presentations from **EU R&I funded projects**

The event will be held at **Karel van Miert Auditorium, MADOU Building 1**

**Place Madou, Brussels from 9:00 to 17:00**

**[Click here](#) for registration**

Participation will be confirmed after registration  
(limited available seats)
