Guerrilla Lighting, un eveniment care utilizează lumina ca o formă de intervenție Urbană este un concept Light Collective al Martin Lupton & Sharon Stammers. Guerrilla Lighting este o metodă extrem de eficace și accesibilă pentru a da putere oamenilor și de a conduce la o schimbare în ceea ce privește rolul iluminatului în mediul urban.

Intalnirea va fi la Facultatea de arhitectura. Vor fi iluminate de catre public 4 cladiri.
